

## A message to Indigenous peoples throughout South East Queensland.

**Are you unhappy with the way your bank treats you?**

**Are you too embarrassed to ask for a loan?**

**Would you ever consider being part of an Indigenous owned and managed financial institution or credit union?**

The Centre for Aboriginal Independence and Enterprise is conducting a study into the financial aspirations of our first nations people in the south east.

Please come along to our community forums and get involved in this ground breaking research.
